Subject: ATSDR Response to Treasure Island Petition

Hi Nadia,

As you may remember, ATSDR received a petition last year from an individual concerned about health risks related to radiological objects found on the former Naval Station Treasure Island, CA. ATSDR mailed the attached letter to the petitioner yesterday, informing him that ATSDR will not be conducting any additional public health activities in response to his petition request. We noted that the Navy and CDPH have thoroughly investigated the occurrence of radiological objects in the former Naval Station Treasure Island Residential Area and that additional ATSDR review of the data that the Navy and CDPH have collected would not provide significantly more information about health risks at the site than is available in existing reports.

If you have any questions, please let us know.

Thanks,
Ben
